

Jorge Christian Gelso

5 people have recommended Chris

"I had the pleasure of working with Captain Gelso while holding my current position as Advisor Vice President Line Operations at Korean Air. Captain Gelso demonstrated competence, professionalism, efficiency with total dedication to the task at hand as an A330 Captain. When the situation presented itself, Captain Gelso acted without hesitation to help a colleague get through the training process or resolve a personal issue. For these reasons and more, it is with pleasure that I endorse Captain Gelso for his personal as well as professional qualities alike."

— **Georges Soueidan**, managed Chris at Korean Air

"Jetmagic as a start up airline depended on the commitment, cooperation and support of all staff. Chris was particularly good at helping us develop our own IT and in-house operations systems. He experience in these areas and in operating the Embraer 135/145 was invaluable to Jetmagic. He went well beyond the "call-of- duty" in contributing to our operation."

— **Ted Murphy**, managed Chris at JetMagic Airlines

"I have known Chris for 11 years and worked with him for 4 years at Swiss International Airlines and Jetmagic. Chris is professional, friendly and mixes easily with his peers. He is a pilot of considerable skill and I recommend him highly for any position for which he applies in the aviation industry."

— **Gareth Bean**, managed Chris indirectly at JetMagic Airlines

"Chris was my line training captain on the Bombardier CRJ 200 regional jet in 2000. It was the first jet I had flown, and I had relatively little experience having graduated from an airline cadetship and then flown turboprops. As such it was a significant step in my career. Having now moved on to be an airline captain in my own right, I can say that Chris was a training captain of the highest order. His depth of knowledge and the quality of his instruction made my training as smooth as could possibly have been in the circumstances. He displayed the perfect blend of letting me learn from my own mistakes, and yet intervening where necessary.

I was taught not only what to do, but more importantly why to do it. I would highly recommend Chris to any position of instruction in an airline environment."

— **Raj Krishnan**, worked indirectly for Chris at Kendell Airlines

"I have known Chris for 25 years now. We met during flying club days, and our careers developed throughout the years, crossing paths many times. We worked together for Southern Winds and Aerolíneas Argentinas. I was witness of Chris' dedication during the Southern Winds years. We both participated in Southern Winds startup back in 1996. As with any startup, the company required commitment, dedication and flexibility. Chris became involved in the creation of manuals, documents and the reengineering of the Operations Department. This was done in addition to our busy flying schedule. I recommend Chris as a professional and as a hard working individual."

— **Marcelo Gullo**, worked directly with Chris at Southern Winds
